Energy Efficiency: Let the Experts Help

Energy efficiency is a winning proposition for every type of business. By investing in your facility now, you can **lower your energy bill**, as well as the cost of your investment by taking advantage of TVA's EnergyRight[®] Solutions for Industry program. Total incentives paid to business and industry in the last 12 months exceed \$4,200,000.

TVA has qualified and approved contractors ready to assist you with the EnergyRight Solutions for Industry program. They offer unbiased, fact-based information on how to improve your facility's energy efficiency and **reduce operating costs**. Rebates and incentives are available to help you make the transition to a more energy efficient facility.

The Preferred Partners Network

TVA Approved. When making an investment in your facility, you want the confidence that you have a contractor you can trust. TVA's Preferred Partners Network (PPN) is a network of general contractors, architects, engineers and trade allies who are experts in their field, and have direct training and insight into the EnergyRight Solutions for Industry program.

Qualified. PPN members can provide sound advice on your best options for investing in energy efficiency and guide you through the application process. And, because Preferred Partners are pre-screened and qualified by TVA, you can be assured that you are getting the best and most knowledgeable contractor to advise and support your project.

For full program details, visit www.energyright.com.

Save Money

When you invest in energy efficiency, you want your project to deliver a quick return on your investment. Let your local PPN member show you how to combine your utility savings and rebate dollars to achieve the fastest payback.

Your utility savings are immediate and substantial - cutting your electricity bill up to 30%. Common energy efficiency retrofits include:

- Lighting
- HVAC
- Motors
- Food Services

Start Saving

- 1 Contact your local Power Company to see if you qualify
- 2 Call David L. Doane, CEM at **865.521.6948** for technology support
- 3 Complete an incentive application
- 4 Submit application for approval
